### **DETAILED ACTION**

The amendment filed March 1, 2004 has been entered. Claim 3, which was previously indicated as allowable, is canceled. The subject matter of claim 3 is incorporated into independent claim 1. Claims 1, 2, and 4-10 are pending.

### ***Allowable Subject Matter***

Claims 1, 2, and 4-10 are allowed. The following is an examiner's statement of reasons for allowance: Claim 1 defines a waste gate valve connected to the charge air channel. As discussed in Applicant's remarks filed October 6, 2003, the prior art teaches connecting a waste gate valve to an engine exhaust to control exhaust gas flow through the turbocharger, but does not provide motivation for connecting a waste gate valve to a charge air channel. Thus, this feature, in combination with the further limitations of the claims, distinguishes the claimed invention over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
